TECHNICAL DETAILS

Available in the following versions:

INK with ink printer;
DP with embossing printer.
HP with hot foil printer
Technical features

Clip Band Length:

500 vey 600 mt

Each Clip Band Produces:

12500 clip

Length Of Each Clip:

40mm, width 8mm

Available in white and many colors
Electric functioning

Air Consumption:

2,5lt/circle 6atm

Electric Consumption:

220V

GPV40 IND & Comipak

Sturdy and reliable. The GPV40 clipping system can work independently...

TECHNICAL DETAILS

Production Capacity:

About 25/30 packs per minute.

Electro -pneumatic functioning

Air Consumption:

5 liters per cycle - 7 bar.

Dimensions Of The Product:

Standard: 150 x 200 mm. (200x300 on request).

Minimum Height Of Product:

115 mm.

Maximum Height:

300 mm.

Clip Length:

40 mm. - Width clip 8 mm.

Minimum Distance Between The Device And The CL

30 mm.

Closing Material:

Plastic clip 8 mm wide with two metal wires at the ends
0,6 or 0,7 or 0,8 mm

Overall Length Clip Reel :

500 or 600 m
